WELCOME MESSAGE FROM SUBJECT MANAGER:

The main thing that various economic entities are faced with is to obtain the maximum possible income. The solution of many problems in this direction lies precisely with management. The management structure of large enterprises, proper organization is the basic principle of achieving the best results.

II. DESCRIPTION AND PURPOSE OF THE SUBJECT: DESCRIPTION OF THE SUBJECT:

International experience shows that the corporate (joint-stock and limited liability company) form of business organization successfully proceeds from the accumulation and investment of capital of various types indicators. Success in the competitive struggle leads to the expansion, expansion and universalization of each economic object. Only through corporatization and especially through the organization of integrated corporations can the economic subject be expanded, diversified and universalized.

PURPOSE OF THE DISCIPLINE:

The content and essence of corporate governance, place and role in the organization of business, subjects of corporate relations, protection of their rights, code of corporate conduct, corporate governance mechanisms, Joint Stock Company and equity ownership, corporate culture and corporate ethics, improvement of corporate governance and growth of corporate power in the post-industrial period and other issues related to corporate governance were studied.
